### Defends Students

Letter Of The Journal Herald:

In answer to the letter of June 1 by Mrs. C. W. Hassir entitled, "Feels College Errred," I would like to point out that the 35 Antioch students showed far better awareness of the Cuban situation than did either the CIA, the state department, or the Joint Chiefs of Staff.

Not only was the invasion ill-prepared and ill-conceived, but the CIA was supporting the most reactionary right-wingers, while the more democratic faction was being held incommunicado in camps in Guatemala by the CIA and, as it turned out, the faction that was not allowed to participate was the very one which might have brought about an internal uprising of the population.
